SYNT-A-LUBE 9010
Synthetic oil for high precision micromechanics

Description

100% synthetic universal fluid thin oil based on ether and aliphatic alcohol with excellent resistance to ageing and good resistance to pressure. Also very effective for use under wet conditions.

With excellent lubricity and outstanding grip, this oil is ideal for regulating parts and fast mobiles. Suitable for all materials. Also available in blue (9010-B).

Ageing resistance / Stability
Adhesion / Grip
Compatibility: Plastics and metals
Application: Universal
Shelf life: 6 years
Temperature range: -30 °C to +70 °C

Application fields

Fine universal oil to be used for:
- Precision micromechanics (watch, timer, measuring devices, tools, ...)
- Instrumentation and counters (automotive, aeronautic, naval,...)
- Micro motors and stepper motors
- Cameras and optical instruments
- General mechanics (office equipment, fans,...)
- Lubrication of fast mobiles with low torque (pendulum pivots, escapements, certain wheels,...)

Storage

We advise keeping Moebius products in their original packaging in a clean and dry place, protected from light, ideally at a temperature of 15 to 26 °C.

After opening we recommend keeping the products for a maximum of 12 months.
