SYNTA-VISCO-LUBE 9020-FL

Synthetic oil for high precision micromechanics

Description

100% synthetic thin fluid universal oil based on ether and aliphatic alcohol with excellent resistance to ageing and to pressure. Also very effective for use under wet conditions.

The added fluorescent tracer allows visualizing the presence of small quantities of oil under UV illumination. Lubricating properties are identical to the 9020 standard oil.

Unctuousness / Lubricity

Viscosity / Texture

Ageing resistance / Stability

Adhesion / Grip

Compatibility: Metals and polymers

Application

Universal

Shelf life

3 years

Temperature range

-25 °C to +80 °C

Application fields

Fine universal oil to be used for:

- Precision micromechanics (watch, timer, measuring devices, tools, ...)
- Instrumentation and counters (automotive, aeronautic, naval, ...)
- Micro motors and stepper motors
- Cameras and optical instruments
- General mechanics (office equipment, fans, ...)
- Lubrication of slow mobiles submitted to significant pressure and torque (gearing, certain wheels, ...)

Storage

We advise keeping Moebius products in their original packaging in a clean and dry place, protected from light, ideally at a temperature of 15 to 26 ºC.

After opening we recommend keeping the products for a maximum of 12 months.
